Document Overview

This document describes the latest software changes made to the Texas Department of Motor Vehicles (TxDMV) webDEALER software application.

Scope

The scope of this is to identify recent software changes to the webDEALER application as documented in the latest webDEALER User Guides. This document does not provide step-by-step instructions on how to use webDEALER.

Audience

The intended audience of this document are users of webDEALER.

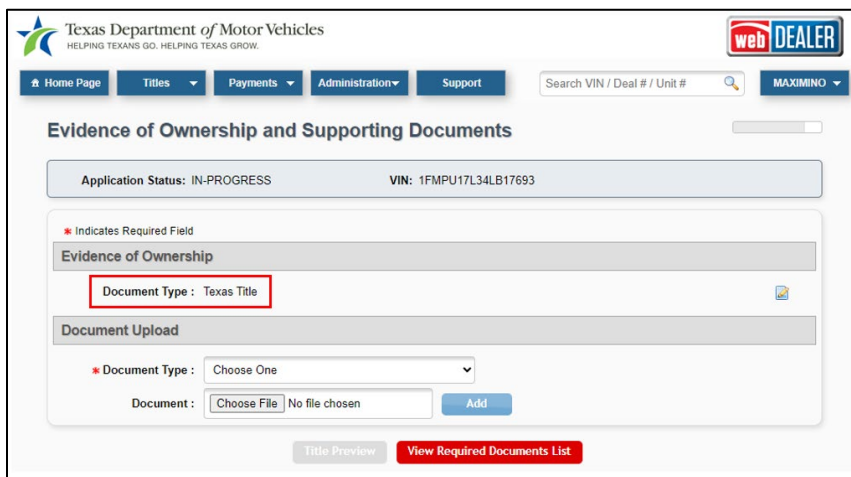

Enhancements in Release 25.1

Removal of Existing Texas Record Information

When completing a VIN search as part of a webDEALER or eTITLE application process, if a Texas title record exists in the department's Registration and Title System (RTS), you will advance to the Seller Disclosure page and will not be shown the current Texas record information.

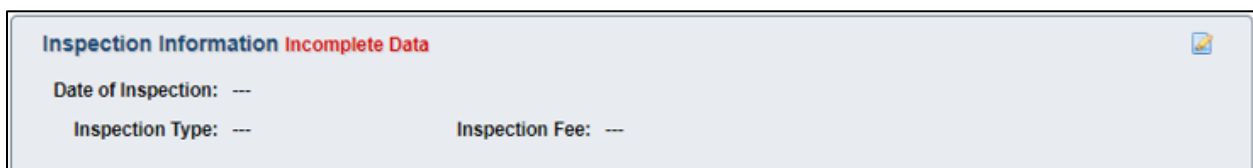

This change was made to safeguard personal information and details found within current Texas title records.

In addition, the title number, issue date, and state/county details on the Evidence of Ownership and Supporting Documents Page have also been hidden for title applications that involve a current Texas record. The details will still be carried forward to the title record and will be available for County users to review.

Updates to the Inspection Information Section of the Title Preview Page

For all non-commercial vehicles, the Inspection Information section of the Title Preview page will only display if the vehicle in question is subject to an emissions inspection and a current passing emissions inspection is not found electronically or the inspection found does not satisfy the emissions inspection requirement.

If the inspection information found does not satisfy the emissions inspection requirement, the following message displays:

Inspection Information Invalid Inspection Type - Emissions Inspection Required.

Introduction of VIN Self Certification for Out of State Vehicles

When submitting a title application for a vehicle last titled and /or registered out of state and the dealer selects to “Complete Buyer Acknowledgement Electronically” on the Seller Disclosure page, if the vehicle is not subject to an emissions inspection, the dealer must self-certify the VIN on the Title Preview page. This is to support titling scenarios where self-certification of the VIN is required but the dealer will not be uploading the *Application for Texas Title and/or Registration* (Form 130-U) with the transaction.

I have physically inspected the vehicle described and verified the vehicle identification number indicated in this application.

County users reviewing the application are able to confirm the Dealer acknowledgement on the Title Preview page.

Selecting a 1 year or 2-year Registration Period

When submitting a title application for a new vehicle (current or previous model year) with a Manufacturers Certificate of Origin (MCO) as evidence of ownership, the Registration Period on the Fee page is defaulted to 2 years. Users have the option of selecting a 1 year or 2-year registration period if the vehicle registration class qualifies for 24 months of registration.

Fee

24 Months of Registration Fees -- Expiration Month/Year: 11/2026

TITLE APPLICATION FEE	\$13.00
TERP TITLE FEE	\$20.00

Enhancement to Title and Dealer Search Features for County Users

The Title Search page, Entity field, includes a predictive filter based on user entered information. For example, if a user enters the numbers 23, search results are filtered to entities which include the sequence of 2 and 3. Dealership addresses have been added to this search feature since a GDN number may be associated with multiple locations.

Removal of VIN Verification Check Box for County Users

VIN Certification Waived remarks are no longer applied to title records when the VIN is self-certified and as a result, the VIN Certification Waived check box available to county users on the Title Preview page has been removed. VIN Certification Waived remarks on existing title records do not carry forward on a title transfer.

Title Preview

Application Status: SUBMITTED

Submitted By: [Redacted]
Submitted On: Apr 30, 2024

Seller Disclosure

Entity: [Redacted]
Processing County: FLOYD
