RRTS- 33646 Inspection Self Certification (Travel Trailers) (HB 198)

Owners/customers may self-inspect travel trailers with a gross vehicle weight (GVW) greater than 7,500 lbs. in lieu of obtaining a state safety inspection. Owners/customers must self-certify they have inspected the travel trailer during the existing annual inspection period and the vehicle is in "proper and safe condition" and complies with the provisions of the state inspection program.

While travel trailers with a GVW more than 7,500 lbs. are no longer required to obtain inspection, customers are still required to pay a Mobility/Clean Air Fee of \$7.50 (an amount equal to the state portion of the inspection fee) at the time of registration.

If an inspection is found, for travel trailers (reg class 38), the system will charge the appropriate inspection fee. If an inspection is not found, the system will provide an option to Self-Certify on behalf of the owner/customer.

RTS-POS

On the Inspection Status **INS001** screen the **"SELF" (Self Certification)** inspection type will be presented.

Once the appropriate inspection type is selected, the Mobility/Clean Air Fee will display on the Enter registration expiration month and year **REG029** screen.
